Dear Harold;

It's hard to keep up with things on the news. I guess all stops are out and all the agencies seem to each be putting out their own disinformation. I just heard on the radio that Tip Oneil said the FBI told WC witnessess not to tell all and that the committee should look into all the assassinations. Also saw Fauntroy on AM america this am. I wouldn't trust him across the street anlong with Stokes.

Am encloseing a check I hope it helps get a deposition from Shannefelt or any of them. My best to you and Lil and also Jim.

Best,

Paul
